

The diagram shows a square sticker layout on a grid. It consists of three concentric square regions: an outermost solid pink border, a middle dashed black border, and an innermost solid orange border. The central white area contains the text 'Square sticker (45mm x 45mm)'. The dashed black border is positioned 5mm from the orange border, and the pink border is positioned 5mm from the dashed black border. The grid lines are spaced at 10mm intervals.

Square sticker
(45mm x 45mm)

Bleed Area: The bleed area extends out 3mm from the edge of your finished document. All images or colour that print to the edge of your document should be extended into this area to avoid the chance of any white lines appearing. Do not place any content that you wish to appear in your document in this area as it will be trimmed off.

Non Text Area: Avoid putting any text 3mm from the edge of the document and 3mm from the fold. Text placed in this area will run very close to the edge of the document and could possibly get trimmed off. If possible also avoid using any thin borders in this area as you may get inconsistent thickness.

Trim Area: This is the finished size of your document. Anything placed outside of this area will be trimmed off.
